Alyssa,

Just to keep you in the loop, Brian called me yesterday to see if the airport knew about the 3 million dollar bond necessary for the PRM. Allstar did not inform the airport that this would be necessary so they are discussing internally whether to continue with PRM or go back to in lieu fee. I will let you know as soon as I know something.

Sorry for the confusion and for your patience,

[Nonresponsive based on revised scope]

Alyssa/Brian,

The BAA has decided to stick with their PRM mitigation plan and will mitigate for all of UNT 8. Their contract with Allstar is a lump sum so removing the ephemeral part of UNT 8 would not change their total cost, so they just want to leave things as is.

Please let me know if you have any questions.

Thank you,

Subject: Benedum Mitigation

Hey Brian,

Got your VM. I am unsure what the airport is doing. Nicole (the PM) asked them again this morning and she has not heard back. I will let you (and Alyssa) know as soon as I know something.

Thanks,
